

TEAMPEGASO GROUP

Multi-KnowHow | Mastering Expertise · Driving Innovation · Leading the Future

«Simplicity is **not**
a simple thing»

– **Charlie Chaplin**

In a constantly changing world, we do not just clarify business choices: we transform them.

Through an approach that combines experience, creativity and targeted strategies, we guide businesses toward Sustainability and Extraordinary.

VISION

We can imagine a future where Technology, Craftsmanship and Innovation twist in order to turn challenges into opportunities.

We want to create an ecosystem where technical excellence inspires Sustainability and Progress, enabling companies and professionals to push the boundaries of new possibilities.

MISSION

We drive change through integrated and customized technical solutions. We do invest in innovation, training and research to improve our customers' performance, creating tangible and lasting value.

Our people-oriented approach is led by quality and sustainability.

Our goal is a more efficient and responsible future.

OVERVIEW

MULTIDISCIPLINARY EXPERTISE

Our multidisciplinary expertise environment can work out solutions for different scopes. We can combine technical know-how to high skilled craftsmanship. Established in 2019, our fast-growing team has expanded its areas of expertise through strategic partnerships and a forward-looking approach.

OUR ESSENCE

- **Multi-KnowHow** | We combine experience, creativity and advanced technology to turn every challenge into a Growth opportunity
- **Mastering Expertise** | From Engineering to Craftsmanship to consulting Services, we always strive to apply efficiency and accuracy
- **Driving Innovation** | Highly innovating and sustainable suggestions use to rule our decision system in order to put forward the needs of the future

OUR AREAS

- **Integrated Technical Services** | Consulting, training, engineering and technology development
- **Textile Technologies & Specialized Craftsmanship** | Production of marine furniture & accessories | Leather Recondition for Automotive and Sport equipment
- **Aviation & Marine Technologies & Services** | Aircraft: Maintenance Service | Marine: Refit & Maintenance Services | Tourism: Customized Experiences, Guided Tours

PRESENCE & PARTNERSHIP

- Ongoing expanding network of international collaborations
- Strategic partnerships with companies, institutions, research centers and universities
- 30+ resources including technicians, consultants and sector specialists
- Wide different fields Customer Portfolio

QUALITY & CERTIFICATIONS ISO 9001:2015 Certification | We guarantee high quality standards and optimized processes to offer reliable and efficient solutions.

BRANDED HOUSE

EXPERTISE & KNOW-HOW

ADVISORY SERVICES

Strategic & Business Advisory

We help companies and organizations define strategies for growth, sustainable development, and digital transformation. Our approach is driven by innovation and business model optimization to ensure long-term success.

Operational Excellence & Process Optimization

We support companies in enhancing performance through Process Optimization, best practice adoption, and efficiency methodologies — ensuring Quality, Safety, and full regulatory Compliance.

Human Capital & Organizational Development

We assist in managing human resources and building high-performing teams through talent development strategies, targeted training, and leadership evolution programs.

Regulatory Compliance & Risk Management

We guide Businesses in achieving regulatory Compliance, managing Risk, and implementing certified Management Systems — ensuring reliability and Market integrity.

ENGINEERING

Technical Outsourcing & Engineering Services

Provision of specialized technical resources for industrial and Aerospace Projects.

On-site and off-site engineering support.

Management of task forces to develop tailored Technology solutions.

Engineering & Design Development

Development of third-party engineering Packages.

Management of multidisciplinary Teams to tackle complex technical challenges, integrating expertise in Mechanics, Electronics, Software, and A.I.

Temporary Engineering Solutions

Integration of resources for short, medium, and long-term Projects.

Optimizing business costs without sacrificing Quality.

Collaborative Engineering

Working closely with internal customer Teams to accelerate innovative solutions and enhance Business competitiveness.

Innovation & Technology Consulting

Supporting organizations in their innovation journey, from Research and Development to the implementation of cutting-edge Technologies.

COMPLIANCE & HSE CONSULTING

HSE Compliance & Workplace Safety

Assistance with compliance to occupational Safety regulations, risk assessment, DVR drafting, and safety management system implementation.

Corporate Training & Certification Programs

Mandatory Health, Safety, and Environmental training for companies.

Courses in fire-fighting, First Aid, and specialized refresher programs for workers and managers.

Customized Training for Companies

Development of Training Programs tailored to Company needs, delivered through classroom, in-company, and e-learning formats.

Solutions to enhance Staff skills and ensure regulatory compliance.

Safety Culture & Risk Prevention

Strategies to foster a corporate Safety Culture.

Consultation on accident prevention, Risk Management, awareness programs, and ongoing training.

Financial Training for Companies

Design, delivery, and reporting of financed Training Programs.

SKILL EVOLUTION

Soft Skills & Leadership Development

Effective communication, problem-solving, and decision-making.

Leadership and team management Development.

Innovation & Digital Skills

Training on new Technologies and Digital Transformation.

Development of digital skills for the future workforce (A.I., Data Analysis, Industry 4.0)

Corporate Training & Team Empowerment

Tailor-made training programs for Companies and Professionals.

Interactive workshops and team-building courses to improve productivity and collaboration.

Change Management & Organizational Growth

Support in managing Organizational Change.

Strategies to increase employee engagement and motivation.

CLOTHING REPAIRS & OUTDOOR EXPERIENCE

Repair & Regeneration of Technical Garments

- Repair and maintenance of Technical and Sportswear
- Regeneration of waterproof, breathable, and technical fabrics
- Specialized services for technical footwear and outdoor accessories

Manufacture of Seats & Technical Cushions

- Production of ergonomic seats for Automotive, Marine, and Industrial use
- Customized cushions for interior, exterior, and professional applications
- Development of technical upholstery for specialized uses

Custom Textile Solutions & Prototyping

- Tailored production for Companies and individuals
- Bespoke craftsmanship using high-performance materials
- Development of prototypes and innovative textile solution

Sole Repair & Sports Footwear Restoration

- Specialization in climbing, hiking, mountaineering, running, and outdoor footwear
- Use of high-performance materials to enhance durability and Safety

Maintenance & Repair of Technical Equipment

- Ensuring maximum reliability and safety for sports equipment
- Technical repairs for backpacks, harnesses, and outdoor accessories

Craft Workshop & Technical Innovation

- A focus on Experience, and detail-oriented professionalism
- Tailor-made services for athletes, sports enthusiasts, and professionals

Sustainability & Circular Economy

- The Repair • Sew • Reuse philosophy to extend the Lifecycle of technical products
- Solutions designed to reduce waste and to promote responsible Reuse

E-BOAT

BLUE OUTDOOR ADVENTURE TOURISM

Planning, Design & Innovation for Green Boating

- Development of electric boat Solutions
- Design and engineering of nautical components and interiors
- Research and application of environmentally friendly Technologies
- Consultancy for vessel electrification and efficiency enhancement

Supply of Marine Products, Components & Accessories

- Technical materials and equipment for nautical maintenance
- Accessories for onboard comfort and functionality
- Components for boat interiors and exteriors

Refitting & Customizing Cabins

- Restyling and modernization of nautical interiors
- Replacement and customization of furniture and finishes
- Tailored solutions for onboard comfort

Exclusive Experiences & Sustainable Tourism

- Discovery tours of the Mediterranean & Ionian Sea, Italian lakes, and natural areas
- Chartering and tours on eco-friendly boats
- Customized experiences for nautical and Outdoor Tourism
- Solutions for hospitality and nautical-related experiential Tourism
- Collaborations with accommodation providers for integrated packages

4-FLIGHT

FLY SAFE. OPERATE SMARTER

Solutions & Products for Aircraft Maintenance

- Tools and equipment for MRO (Maintenance, Repair, and Overhaul)
- Specialized consumables and spare parts
- Operator protection and safety systems

Production of Prototypes & Customized Solutions

- Design and production of Aeronautical prototypes
- Tailored components for specific requirements
- Development and manufacturing of dedicated technical equipment

Supply of Components & Spare Parts

- Structural repair materials
- Components for aircraft cabins and interiors
- Solutions for seats, upholstery, and technical coverings

Consultancy & Technical Support Services

- Optimization of maintenance processes
- Support for certification and regulatory compliance
- Solutions for digitization and maintenance management
